

Crop cultivation

Course content

The course will focus on preparing cultivation plans for the most common crops. The following areas are worked on, among other things, on a theoretical basis:

- Crop rotation plans
- Environmental impact
- Fertilization plans
- Cultivation with or without chemicals
- Coverage contribution calculations

The teaching will primarily be classroom teaching, where the students work on preparing cultivation plans. As a supplement to classroom teaching, the students must visit the field. The course is a continuing course at an advanced level.

General information:

Time:

2 weeks. 18 of september to 29 of september 2023

Place:

Finderupvej 8, 4270 Hoeng. Denmark

Accommodation:

It is possible to stay at the school for 100€/day including room and 3 meals

Number of participants:

Max. 20

Cultural activities:

Kragerup Manor

An estate from 1327 with a beautiful historic setting and fantastic surroundings. Kragerups unique location surrounded by the forest and lakes calls for all kinds of team building exercises and other activities with your team. They offer different teambuilding and other types of activities to build and strengthen communication, co-operation and teamwork – or maybe just an icebreaker or to have a fun team day.

Trelleborg Viking Fortress

One of the places where the Viking Age can be experienced close at hand is the Viking fortress of Trelleborg, near Slagelse in West Zealand. The impressive remains of one of the Vikings' great ring fortresses were originally constructed around AD 980 by King Harald Bluetooth and are located in the beautiful area of Tude ådal. The museum at Trelleborg includes models, archaeological finds and reconstructions that give a vivid impression of Trelleborg's history, its inhabitants and the function of the fortress.
